maps.google.com)

## Snow Emergency Alert Levels

This Snow Emergency Route Guide provides LANTA riders with a list of route changes that may be implemented during a declared snow emergency.

Route changes may be implemented Systemwide, by Region, or by Detour Area.

### FULL CANCELLATION

LANTA actively monitors roadway conditions during winter weather events for snow and ice.

If roads become too slippery, LANTA will call for a Full service Cancellation and will issue a Time for the cancellation.

At that specified time, ALL LANtaBus Routes will begin Drop-off Only service to their End of Line or next Transit Center before terminating.

Transit Centers at which service will terminate:

- **ATC** = Allentown Transportation Center
- **BTC** = Bethlehem Transportation Center
- **EITC** = Easton Intermodal Transportation Center
- **LVM** = Lehigh Valley Mall Transit Center
- **LVIA** = Airport Multimodal Transportation Center
- **SSTC** = Southside Station Transit Center
- **TTC** = Trexlertown Transit Center

### FULL SNOW EMERGENCY

After a Full Cancellation or if snow is accumulating too quickly on hills, LANTA will begin Full Snow Emergency detours.

During a Full Snow Emergency, all LANtaBus routes will continue operating with modified services as described under the Snow Emergency Detours section of this guide. NOTE: Buses will likely be delayed during Snow Emergencies. It is recommended that

Riders use any of the bus tracking apps listed in the Emergency Updates section to determine their bus location and arrival time.

### PARTIAL SNOW EMERGENCY

After a snow event, some areas may be cleared before others. As areas begin clearing, LANTA will enter a Partial Snow Emergency during which select Regions or Detour Areas will be listed.

The Snow Emergency Detours section of this guide lists all Regions and Detour Areas in the following format:

### Region name

#### Detour Area name:

Detour Area description

- **Affected Route Number & Direction:** Turn-by-Turn detour directions. (Buses make all stops on detour streets, but only at locations that are safe to stop as determined by Drivers. Please select a cleared stop location that is clearly visible to oncoming traffic.)

If a Region is listed, all detours listed under that region will be in effect.

## Regions & Detour Areas

### Allentown

400-Level Routes  
Allentown 1st Ward  
Allentown 4th Street  
Allentown 22nd Street
